

AMERICAN VOTER REVOLUTION

The Honorable
United States Senate

Washington, DC 20510

Dear Senator

I have become increasingly concerned about the current direction of our country. I am concerned that the Congress and the President have sold The American people out to gain the support of the lobbyists, large corporations, special interest groups and wealthy individuals. It seems they have no concern whatsoever for us as individuals or for the future of our families and communities.

It seems that no matter which political party is in power, government keeps getting bigger, more powerful, more expensive and more intrusive. Most of the time, it appears the only difference in the Democrats and Republicans in Congress is which special interest groups they're most beholden to. Unfortunately, the two party political system gets more corrupt with each election cycle. Frankly, neither party seems to care about the future of our country. Their only concerns are increasing their personal wealth, gaining more political power and getting re-elected! It is clear that both political parties play the same game and America is in dire need of new leadership and governmental reforms.

I've had enough, and I've decided to do something about it. I've decided to join forces with the American Voter Revolution (AVR) to help convince you and the other incumbents in Congress to embrace the AVR's three critical reforms so they can be proposed as legislation and voted into law. In the event we can't get that done, we will work to elect citizen representatives who truly care about the American people to replace the career politicians. We just can't afford to wait any longer hoping that our representatives in both chambers of Congress will do what is in the best interest for the majority of American citizens!

Our country was once governed by politicians who acknowledged that they worked for the voters who elected them to office. Sadly, our country is currently governed by a majority of self-centered, self-indulging career politicians who pander to the aforementioned lobbyists, special interest groups, large corporations and a few wealthy individuals who finance their campaigns. They are tantamount to liars and thieves. They commit the exact actions that the founding fathers of the United States of America warned us against. Our worst fears have come true!

We are not interested in politically correct, mealy-mouthed, wishy-washy, lying and corrupt politicians wanting to increase their personal wealth and further their own personal agendas. We are looking for loyal, honest, straight-forward and responsible representatives who truly love America and want to see it returned to its original constitutional glory. We need people with high morals who will stand up for the truth! I am sick and tired of the talking heads and the biased media outlets putting the “party spin” on every issue regardless of how long their noses grow or how stupid it makes them look! **What has happened to the SIMPLE TRUTH?** It is critically important that you commit to make some drastic changes in Congress, the IRS and our entire Federal government. It is imperative that Congress stop their out of control spending so that our children and grandchildren will be able to enjoy the same opportunities and freedoms that our founding fathers envisioned for all Americans; those very freedoms that thousands of patriots have given their lives to protect.

I want Senators who truly want to serve the people of our great State for a maximum of twelve years and then go home and work in the private sector and experience life like other middle-class Americans do. It was never intended for our government to be made up of career politicians. Twelve years of service is enough for anyone. We need to give others a chance to serve our great country in Washington DC! If you do not believe in and support these ideals of the American Voter Revolution, we don't think you have the best interest of America at heart and you are neither an honest representative of the people or a true American Patriot!

I will support incumbents and/or citizen candidates who believe in the ideals and goals of the AVR and will work for the governmental reforms advocated by the American Voter Revolution beginning with the following Three Critical Reforms:

You will receive a Senate Voter Protection Pledge form direct from the AVR office. We are requesting that you review, sign and return this form to the AVR so that our voting coalition will know that you have pledged to support the congressional reforms advocated by the American Voter Revolution. We look forward to your response and hope that we can count on your help in restoring our government of the people, by the people and for the people, as our founding fathers intended it to be! If you will not pledge your full support for these reforms by returning the signed pledge, we will cast our votes for someone who will.

Sincerely yours,
